Tangerine 48 Event Video Link

A very nice profession video was made of our field on Thursday of the Tangerine Event. It shows off our field from the viewpoint of the models we fly. Below is a link. It's a "must see".

<https://www.youtube.com/watch?v=47a-MeRa818&authuser=0>

From Bert Prieus:

The OWLS December monthly meeting had a great turnout with 17 members showing. We could not fly though till late as we had a dense fog hanging over the field limiting the view to a few 100 feet however...Our youngest member, Shaun, brought one of his "specials". A light weight gyro copter with 2 rotors. The windless, misty morning was just perfect to get airborne. And it flew - like an airplane and/or helicopter, gentle and safely. Shaun, you nailed it that day. Glad to have you as a member!
