December Meeting

The December Meeting was well attended and we had a great day of flying.

Gas powered Helicopter at field

From Fernando: In December, Richard from South Florida was invited to fly at OWLS. He flew an Align T-rex 800 heli with a Senoa 29cc gas engine. As far as we know this is the first gas powered heli to fly at OWLS. He plans to return later in the year to share his skills with Fernando.

"Chips The Sbach"

From Fernando: Bob is having great success and fun with his gas powered Sbach. He nicknamed it "Chips" and added a pilot figure. Just about every time he carries this old plane, he hears the balsa crackle. Hence the nickname.
