AMA INTRO PILOT
INSTRUCTORS

Website: Members Page

Attending our monthly meeting is the best way to stay connected and informed. We understand not everyone can be present at every meeting. We now have the Monthly Meeting Minutes, 2019 Financial Report, 2020 Mowing Schedule, and Emergency Contact List posted on our website along with a list of our members.

You will find all these pages at: onewinglowsquadron.org/members

The Phoenix Has Risen

Like the bird of legend, Ken's Radian XL (The Phoenix) rises from the trash heap of broken models, spreads its mighty 2.6 meter wings and with a roar powered by its 5,000 milliamp lipo soars again with the eagles; all thanks to a marvelous rebuild by Charles.

The Quad(rant)

Over the past weekend during an Equine Endurance event in the Goethe Forest, a rider was launched from her horse after which the frightened horse galloped away. Many of the eventers with local horsemen and horsewomen searched the Goethe trails the rest of the day for the horse to no avail. The following day along with more searchers, a local RC Drone pilot volunteered to do an aerial search but that too failed to find the horse. Several years ago, a similar incident occurred and the horse was never found and all feared this may end the same way. BUT, after missing for 48 hours, searchers found the horse, sans all its tack and equipment and sporting only scratches and bruises. Owner and horse were joyously reunited.

The Club's Model Project ...by Charles

The club now has a very nice Sensei trainer and a very rugged Albatross trainer for students and novices to use while learning to fly. We also have a Spektrum transmitter donated to fly them. When the project is completed and the transmitter and models are properly configured, they will be available for the Club to use. That project should be completed in a few weeks. We'll let you know the details shortly.

Upcoming Events

KennyWorld is hosting a 4 day weekend soaring event Feb. 28th ó March 2nd.

Use the link below or visit RC Groups for more information.
