SECRETARY

~  
ART SCHEURER  
SAFETY COORDINATOR  
& FIELD MARSHALL

~  
BRET MARTIN  
FERNANDO MESA  
AMA INTRO PILOT  
INSTRUCTORS

## George's Exciting New Aircraft

From Bert:

Here's George with his foldable wing airplane. You see an ongoing pre-flight discussion with the president such as "does this plane falls under AMA insurance, is the GC or wing angle of attack correct, or how many G's can it pull - George seems flabbergasted.

Then the ultimate maiden flight...

Alas the propulsion system, in this case a rubber band, did not hold well - it snapped with a loud bang. Maybe age could have something to do with that. All's well that ends well, no damage was done and no people were injured.

The airplane was donated shortly after.

## **Ron's Ranger Modification**

Ron was in top form. He greased his landings with his modified Ranger. here you see Ron's gear mod.  
Original Factory Tricycle Gear:

Modification to Tail Dragger:

### September Flight Activity on OWLS Field

## **FAA Extends Remote ID Enforcement Date Six Months**

Our member Shaun Elmore has sent a link that has data on the FAA Remote ID Enforcement. Please take a look to stay informed. Remember they refer to any unmanned aircraft as a DRONE!!
